Triller

What is Triller?

Triller is a social video platform available for iOS and Android users. It has been widely compared to TikTok as it involves users dancing or lip-synching to their favourite songs. A number of celebrities are using Triller such as Justin Bieber and Rita Ora. Users can create videos, which are then auto-edited along with the ability to add filters and personalise with text and emojis.

Triller is rated as 12+ by the App store, which means it may not be suitable for children under the age of 12.

What should I be aware of?

In app purchases:
'Gold' can be bought as an in-app purchase. Ensure your card details are not saved on your child's device and that your child understands to always ask permission before purchasing.

Direct messages/commenting
There is the ability to privately message other users as well as receive comments on your videos. This can pose a risk of receiving negative messages.

Inappropriate content:
Whilst Triller state in their Community guidelines that harmful content is not allowed and will be removed, potentially inappropriate content could be viewed.

Reporting/Blocking:
If your child does come across any inappropriate content or behavior then they can report it within the app by tapping on the three dots within the user's profile. They can also choose to block that user. Alternatively, you can email support@triller.co.

Saving:
Users are able to share other people's videos (via other social media platforms/ email/ messages/by downloading) which means somebody could share your child's video without their consent. It is important your child is aware of this.

Public profiles:
You need an account to upload content. When you create an account, it is automatically set to public. Accounts can be changed to private in profile settings, which means only the people your child approves, can view what they upload.
